This is the story of a journey **dedicated to fruit.**

Empe Global is a food company that manufactures and supplies natural and healthy food ingredients based in Anamur, Mersin. Our advanced freeze-drying technology allows us to offer a variety of unique products, including freeze-dried fruits, vegetables, dairy, and confectionery.

Our main facility is located in Anamur, Mersin, where we have access to Anamur's finest natural bountiful lands and its vicinity, as well as high-quality ingredients from around the world.

Our in-house production, R&D, logistics, and export teams work collaboratively under one roof to provide professional services to the global food industry, including superfood ingredient supply, private labeling, and custom-tailored manufacturing.

We are committed to working closely with our clients in every aspect to help them achieve their business goals. At Empe Global, we strive to develop innovative approaches to creating natural, healthy, convenient, tasty, and most importantly, accessible freeze-dried foods.

Our aim is to be one of the effective companies in the market to supply the future foods for the world population.

WHY FLAVORIST ?

Since being put in production, freeze-dried products have attracted the attention and love of people from all walks of life, because freeze-dried products, including fruits, vegetables, and their versatile use of applications, not only bring convenience and benefits to our lives, but also enrich our daily diets. Freeze-dried foods are undoubly special among the other foods due to retaining all their nutritional values when compared with the fresh ones. Moreover, Freeze-dried products do not contain sugar and additives. Freeze-dried products are considered the future foods for the mankind's nutrition.

When viewed from this perspective, Empe Global's production and R&D teams have enough experience and a strong feeling to serve our freeze-dried products without compromising on quality. Every stage of the production, from field to table, is under the control of our quality team. Our R&D team has strong experience in food science, nutrition, natural health food, biotech, process design, and quality control. By this expertise, Empe Global always ensures commitment to good manufacturing practices and standards set by regulations of the Turkish Ministry of Health, regulations of the Turkish Ministry of Agriculture, the Turkish Food Codex, and objectives of FAO and WHO.

In packaging, we have a capability of multi-head weigh packaging lines, precision powder packing lines, advanced cushion packaging machines, metal detectors, and more.

In shipment, through our shipment agency, we can distribute the products across the world by land, sea, or air.

OUR PRODUCTS

We offer our natural fruits in their freshest form, completely pure and free from additives. Using freeze-drying technology, we preserve the nutritional value of our fruits in the best possible way, turning them into delicious and healthy snacks. Our products are carefully prepared to add a touch of natural flavor to every moment. Supporting a healthy lifestyle, we provide all-natural and additive-free snack options suitable for all ages.
